DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jacob Koering on June 21, 2004.

The application has been amended as follows:

- a) in line 4 of the second full paragraph on page 9 of the specification (amendment of April 5, 2004) -- 14 -- has been inserted between "means" and "to";
- b) in line 5 of the second full paragraph on page 9 of the specification (amendment of April 5, 2004) "13, such as conventional" has been replaced with -- 13 . --; and
- c) in line 6 of the second full paragraph on page 9 of the specification (amendment of April 5, 2004) "terminals 14." has been deleted.

2. After reconsidering the rejection of claims 22 and 34 under 35 U.S.C. 112, first paragraph, the examiner has decided to withdraw this rejection because Applicant agreed to restore the original wording to the second full paragraph on page 9 of the specification. The disclosure of electro-osmosis and electrophoresis mass transport in the paragraph is sufficient support for the means-plus-function limitation of claims 22 and 34.

Allowable Subject Matter

3. Claims 1-4, 7, 9, 10, 14-23, and 32-34 are allowed.
